

Educational Activities in your School

Bring the wonder and excitement of a day at Carymoor into your school, through a range of assemblies, cross-curricular workshops and project days – all tailored to your needs.

Our fun outreach sessions link to themes such as the 3Rs (reduce, reuse, recycle), composting, sustainable living, energy saving and renewable energy, habitats and attracting wildlife to your school grounds. They are a great way to add wow-factor to a topic or eco week!

"All three classes were buzzing with excitement following the workshops! They were focused, on task and enjoyed the creativity."

Rockwell Green Primary

Carymoor Critters after-school club

If your school is within 20 miles of Carymoor we can run our action-packed after-school club for you, combining fun activities linked to the Eco Schools topics (Biodiversity, School Grounds, Transport, Water, Energy, Waste, Litter, Global Perspectives and Healthy Living).

The club runs for six 1-hour sessions per half term, and can take up to 20 children per session. Please contact us for further details and current charges.

Experience the wonders of Carymoor!

Bring your class to Carymoor for a unique and unforgettable experience. With access to a working landfill site, beautiful nature reserve, sensory and wild-flower gardens, replica shanty town, Celtic roundhouse, forest school area and sustainable buildings, we bring green issues to life all year round!

🌿 Key provider of environmental education since 1996

🌿 Fun, hands-on activities delivered by experienced team members

🌿 Cross-curricular topics including waste and recycling, materials, sustainability, global citizenship, habitats, Celtic life and more...

🌿 Variety of services available including day visits, workshops in your school and our Carymoor Critters after-school club (see back page for more information)

🌿 Our eco-centre can accommodate up to 80 children per-day and our outreach team can deliver to up to 4 classes per-day at your school

🌿 All activities can be tailored to suit your needs, so get in touch to discuss in more detail

"In more than 20 years of teaching this was the best trip I have ever taken children on – educational, fun and inspirational!"

Educational Activities at Carymoor

🌿 Wild Days Out (EYFS, KS1 and KS2)

We use our extensive range of habitats and wildlife to give children a WILD time and help them gain a deeper understanding of the natural world.

Our interactive activity sessions use a variety of approaches such as games, trails, crafts and guided exploration. These link to themes like habitats, adaptation, food-chains, camouflage, senses, plant lifecycles, tracks and signs and more!

Find full lesson plans and more details on our website at:

www.carymoor.org.uk/education

♻️ A Day at the Dump (KS1 and KS2)

Investigate the fate of materials at a working landfill site, the issue of waste management and the benefits of the 3Rs (reduce, reuse and recycle). Take part in an eye-opening site tour which includes the landfill tipping face, large-scale composting facility, leachate treatment works and electricity generators powered by landfill gas. The tour also explores the capped landfill that is now managed as a haven for wildlife. Complete the day with an interactive activity linked to waste and the 3Rs, sustainable living, renewable energy or global citizenship.

🏠 Crafty Celts (KS2)

A stimulating day of hands-on history, enabling children to experience the techniques and materials used by Celtic craftspeople during the Iron Age, utilising our full-size replica roundhouse and a variety of materials harvested from our nature reserve.

👤 Slumming it! Global Citizens Day (KS2)

Your class become residents of Carymoor's shanty town for the day and find out what life is like surrounded by rubbish. How will they find shelter, source clean water and stay healthy in Kroo Bay, Sierra Leone? How will their day compare to a day at home in England? And can they complete our rubbish re-use challenge?!
