

# Recycling & disposal charges inclusive of vehicle parts

Special arrangements with charges have been introduced for vehicle parts, which are not classified as household waste, to be accepted at these 10 recycling centres.

Effective from April 2022

			<u>CLOSURE DAY/S</u>
<b>Bridgwater Q*</b>	Saltlands Avenue TA6 3JS	Tel: 01278 444877	WED
<b>Frome</b>	Manor Road BA11 4JR	Tel: 01373 453622	
<b>Minehead Q*</b>	Mart Road TA24 5BJ	Tel: 01643 707894	TUE
<b>Taunton Q*</b>	Priorswood TA2 8QY	Tel: 01823 338615	
<b>Yeovil Q*</b>	Artillery Road, Lufton BA22 8RP	Tel: 01935 411151	
<b>Street Q*</b>	Farm Lane BA16 9PB	Tel: 01458 840076	THUR/FRI
<b>Wellington</b>	Poole Brickworks, Nynhead TA21 9HW	Tel: 01823 661617	MON/TUE
<b>Williton</b>	Roughmoor Industrial Estate TA4 4RF	Tel: 01984 632221	WED/THUR/FRI
<b>Chard Q*</b>	Beeching Close TA20 1BB	Tel: 01460 65855	WED
<b>Highbridge Q*</b>	Isleport Business Park TA9 4JS	Tel: 01278 784419	MON/TUE

Site Opening Hours		
	Monday – Friday	Saturday & Sunday
Winter (Oct-Mar)	9am to 5pm	9am to 4pm
Summer (Apr-Sept)	9am to 6pm	9am to 4pm
<b>PLEASE NOTE – NOT ALL SITES ARE OPEN EVERY SINGLE DAY.</b> See table above for the closure days.

# Recycling and disposal of vehicle parts

Only the vehicle parts detailed in this leaflet are permitted at the recycling centres listed on the front page. In the table, EWC codes are European Waste Catalogue materials classification; \* indicates a hazardous item requiring careful handling, such as an item that could contain liquid.

On arrival with chargeable items or materials, site visitors should contact a staff member before unloading, show them the items or materials, pay with credit or debit card, and obtain and retain a receipt.

These vehicle parts cannot be accepted at any recycling site, because they contain small explosive charges: airbags, items containing airbags – from steering wheels and dashboards to seats and upholstery – and seat belt tensioners or belt assemblies containing tensioners.

Items that contain or could contain asbestos – e.g. brake pads, clutch assemblies – can be accepted as a vehicle part, see price list for applied charges. Such items must be double bagged in plastic and sealed before being taken to one of seven sites that accept asbestos (call site in advance to check space is available): Bridgwater (Saltlands), Frome, Highbridge, Minehead, Street, Taunton (Priorswood), and Yeovil.

Before being brought to one of the 10 sites, items that could contain fuel, water, lubricants or other fluids – e.g. brake lines or cylinders, fuel pumps or heater water systems – must be fully drained, and any part that could hold an electrical charge, must be discharged.

All vehicles and persons using a site must adhere to the Visitor's Health & Safety policy – ask Biffa staff for details – and customers **MUST** take reasonable steps to protect themselves and other users of the facilities, including supplying their own personal protective equipment & clothing, if necessary. Consider manual handling issues before taking heavy vehicle parts to a recycling centre. Recycling centre staff are not able to assist with the unloading or moving particularly heavy items.

In case of a dispute, customers should contact the site manager. The site manager will have the final decision about whether to accept waste and what charges will be applied at that time. If there are any issues regarding the site manager's decisions, pricing structure or how facilities are being operated, customers should contact Somerset County Council on 0300 123 2224 or email [somersetdirect@somerset.gov.uk](mailto:somersetdirect@somerset.gov.uk).

This service is open to members of the public bringing in domestically generated vehicle parts. Businesses, including traders dealing in vehicle parts, are excluded from using these facilities. There is no restriction on the quantity of vehicle parts accepted on site or the number of visits to dispose of vehicle parts. Deposited parts become the property of Biffa and are not available for purchase or “swapping”.

These sites are operated by Biffa Ltd; all site staff are direct Biffa employees.

<b>Vehicle Part Description</b>	<b>EWC Codes</b>	<b>Price Inc VAT Per Item</b>
Air conditioning compressor	16.01.22	£4.85
Air conditioning refrigerant system parts drained / cleaned	16.01.22	£4.85

Under body ornamentation	16.01.22	£4.85
Under body structure	16.01.17	£118.50
Under body trim and upholstery	16.01.22	£4.85
Water pump and drive	16.01.22	£4.85

# Charges for other materials and items also not classified as household waste

Charges, as detailed below, apply to deposit gas bottles and construction and demolition materials, which are not classed as household waste, at all of Somerset's 16 recycling centres.

## **Gas and Oxygen Bottles - empty, part or full cylinders**

(Gas bottles can be deposited at any recycling centre, though a better and cheaper solution may be to return empty gas bottles to the original supplier or manufacturer - the name of manufacturer can usually be found on the side of the bottle).

- £7.20 per bottle (below 10kg)
- £14.30 per bottle (10 - 20kg)
- £42.10 per bottle (specialist cylinders)

## **Construction and Demolition Materials**

Construction and demolition materials such as stone, rubble, clay and concrete; also sinks, tiles and toilets made from ceramics or porcelain. There is no charge for crockery or clay flower pots, although we ask for these to be put in hardcore skips.

No charge for a single carrier bag equivalent or less

- £4.10 per bag (including part) size equivalent to more than a single carrier bag
- £21.00 small van or trailer (estimated carrying capacity up to 250kg)
- £42.10 medium van/trailer (estimated carrying capacity up to 500kg)
- £81.05 large van/trailer (estimated carrying capacity up to 1 tonne)
